About Us

ENABLR GENERAL TRADING – L.L.C is a UAE-based trading company located in Abu Dhabi, specializing in the supply of high-quality industrial, mechanical, electrical, instrumentation, fire, and safety products. We serve a wide range of industries by providing reliable products and sourcing solutions tailored to the technical and operational requirements of our customers.

Our product portfolio includes industrial valves, pipe fittings and flanges, mechanical seals, electrical motors, transformers, switchgear, power and instrumentation cables, process instrumentation, actuators, flow meters, measurement equipment, fire protection systems, personal protective equipment, and industrial safety products.

We are committed to building long-term business relationships through quality products, competitive pricing, responsive service, and dependable supply support. Our team works closely with clients to understand their project and maintenance requirements and help them identify suitable products and solutions.

At **ENABLR GENERAL TRADING – L.L.C**, we aim to be a trusted trading partner for industrial and commercial customers across the UAE and beyond, supporting their projects with professional service and reliable product sourcing.

Our Vision

To become a trusted and leading industrial trading partner in the UAE and international markets, recognized for reliable product sourcing, quality solutions, competitive value, and professional customer service. We aim to build long-term partnerships and continuously expand our product portfolio to meet the evolving needs of industrial, commercial, and infrastructure sectors.

Our Mission

Our mission is to provide reliable industrial products and sourcing solutions across mechanical, electrical, instrumentation, fire, and safety sectors. We are committed to understanding our customers' technical requirements and delivering suitable products with competitive pricing, responsive service, and dependable support.

Our Products

Mechanical Products

We provides a comprehensive range of mechanical products for industrial, commercial, oil & gas, petrochemical, power, and infrastructure applications. Our product portfolio includes industrial valves, pipeline valves, plug valves, butterfly valves, DBB and monoflange valves, expansion joints, mechanical seals, pipe fittings, and flanges.

Electrical Products

We offers a wide range of electrical products and equipment designed to meet the requirements of industrial facilities, power systems, infrastructure projects, and commercial applications. Our portfolio includes instrumentation and power cables, welding machines and electrodes, electrical OEM spare parts, switch-gear, AC and DC motors, asynchronous motors, power distribution transformers, MCBs, coils, and electrical fuse components.

Instrumentation Products

We supplies a diverse range of instrumentation products for process control, measurement, monitoring, and automation applications. Our portfolio includes valve actuators and positioners, flow meters, temperature and pressure gauges and transmitters, temperature sensors, level switches and transmitters, thermowells, thermocouples, instrument valves and fittings, orifice plates, instrument tubing, and passive fireproofing solutions.

Fire & Safety Products

We provides a comprehensive range of fire protection, firefighting, personal protective equipment, and industrial safety products for commercial, industrial, construction, oil & gas, and infrastructure applications. Our portfolio includes fire extinguishers, fire hoses, hose reels, fire hydrants, fire valves, fire pumps, fire alarm systems, smoke and heat detectors, emergency lighting, safety signage, PPE, gas detection equipment, fall protection systems, and first-aid equipment.
